ROWANS PRIMARY - EXPLORE - SCIENCE
TERM 4 - LIVING THINGS AND HABITATS

LESSON 1

Learning Intention:

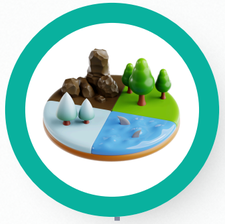

To identify and classify things as living, dead or never alive, using observable evidence.

LESSON 2

Learning Intention:

To identify habitats and explain how they provide for the basic needs of plants and animals.

LESSON 3

Learning Intention:

To investigate microhabitats and record the living things found in different places.

LESSON 4

Learning Intention:

To describe simple food chains and identify sources of food for animals.

LESSON 5

Learning Intention:

To compare living things and conditions in contrasting habitats and explain how basic needs are met.

LESSON 6

Learning Intention:

To use observations and knowledge to explain how a habitat supports living things and present scientific findings.
